Samba Powerboats

Samba Powerboats are produced by Mag Marin Composite Yachts. Over the past 15 years, The Yard has specialised in building composite sailing boats that has been winning races in 3 continents.

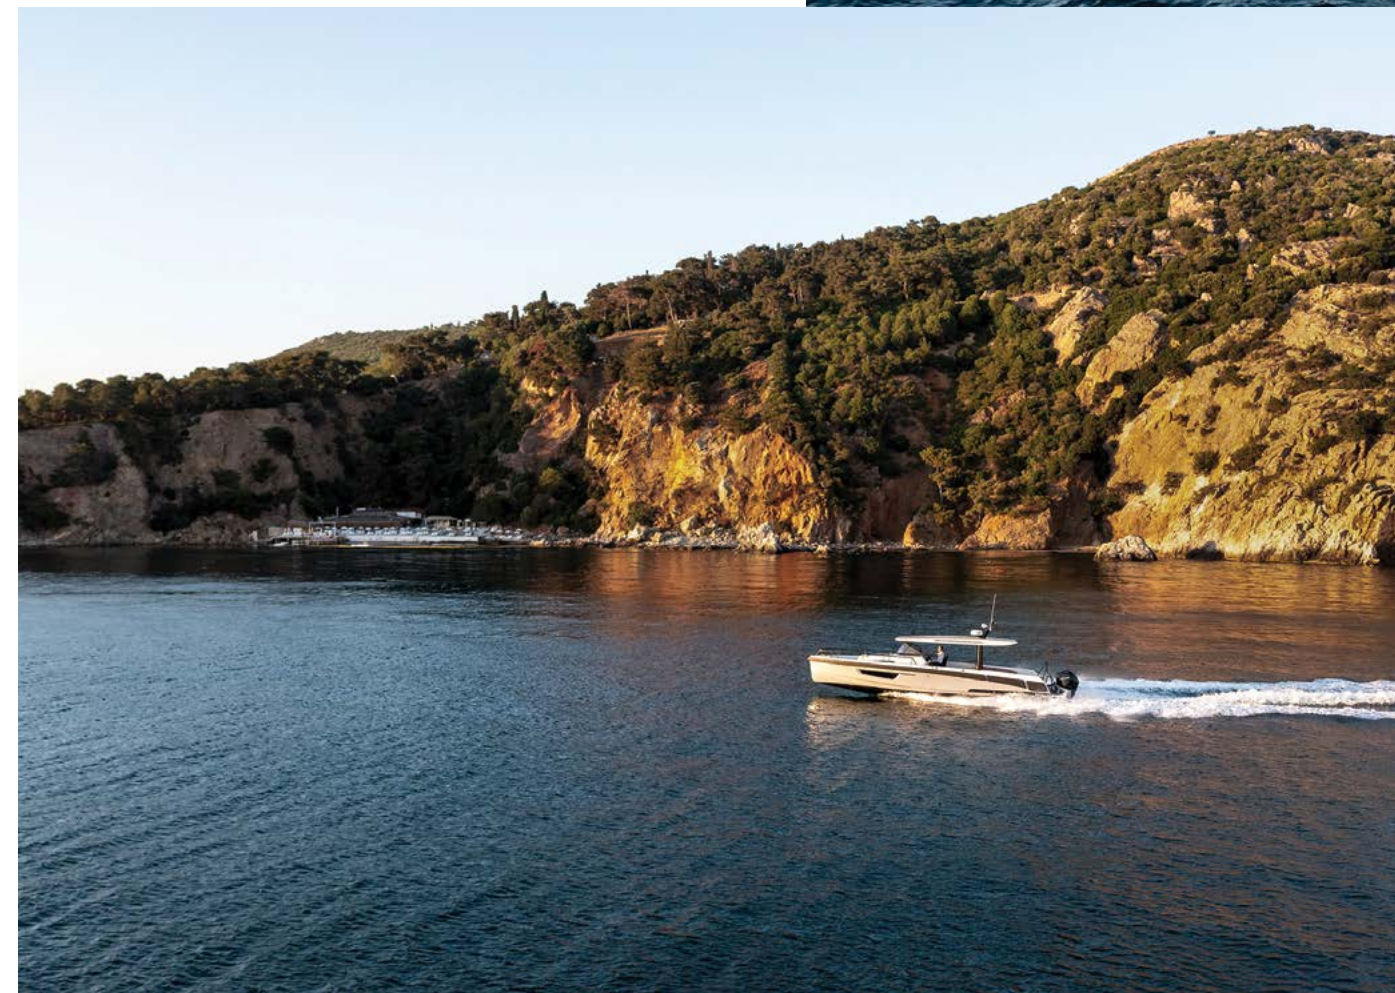

Each Samba11 is engineered and built with precision, much like a high performance racing yacht. Foam cored, vacuum consolidated epoxy eglass construction with carbon reinforcements results in a light yet robust and durable structure giving you fast, safe, comfortable and fuel efficient ride.

Samba line of powerboats are designed with Seamore philosophy and result is a multipurpose vessel for daytrips, overnight passages, fishing, and other watersports, as well as serving as a tender to a main yacht, focusing on providing more quality time to owners.

SEAMORE: More quality, active and fun time aboard.

Samba11
OPEN RANGE: T TOP / SUN TOP

Samba11 OPEN T TOP

Samba11 T-Top is for sun lovers and watersports enthusiasts.

There is an aft seating option as well as a sunpad option under a permanently fixed rigid T Top covering the helm area and partially aft.

Forward cabin houses accommodation for two and a seperate enclosed toilet compartment with shower so you can embark on that occasional long distance, overnight trip to your favourite coastal destination.

Samba11 OPEN SUN TOP

With an extended length hard top, Samba11 Sun-Top offers the most shade and weather protection possible in an open boat.

Without compromising in any way on the space and versatility of the walkaround side and aft-deck area, Hardtop is fixed on sturdy mounts and successfully screens all aft seating positions.

There is an aft seating option as well as a sunpad option under a permanently fixed rigid T Top covering the helm area and partially aft. Forward cabin houses accommodation for two and a separate enclosed toilet compartment with shower so you can embark on that occasional long distance, overnight trip to your favourite coastal destination.

Samba11 CABIN

With fully enclosed cabin and port and starboard entry doors Samba11 Cabin provides protection in both hot and cold climates for maximum enjoyment of boating in all weather conditions and all seasons hence truly living upto its design philosophy Seamore.

The boat offers a comfortable and roomy, no compromise interior space that seats upto 7 around a large and sociable but removable dining table.

Same as open versions, Forward cabin houses accommodation for two and a seperate enclosed toilet compartment with shower so you can embark on that occasional long distance, overnight trip to your favourite coastal destination.
